

## STAMPING OUT LOOTING EVIL

Light-Fingered Gentry at Work  
Cleaning Streets of San Francisco.

San Francisco, May 12.—A novel method of stamping out the evil of looting, which has been on the increase despite the stern measures taken by the civil and military authorities, has been inaugurated by Chief of Police Dinan. That official has issued an order that whenever a looter is caught he is to be put in a squad under the command of Detective Sergeant Charles Taylor. Members of the squad are compelled to labor at clearing away the debris already looted by the looter. The squad is given discretionary powers as to the term each of the members shall serve. Already the streets about Portsmouth square are being cleaned up by the squad. The result of the work of the captured looters, Chief Dinan believes that when the existence of Sergeant Taylor's army becomes generally known looting will greatly decrease.

### License Will Be Boosted.

The liquor question was again discussed today by the authorities, and it has been proposed that the charter of the city be amended so that the license which has heretofore been \$100 a year be raised to \$500. Before the fire there were 4,000 saloons in this city, and it is believed that the increased license will reduce this number to 1,000, without in any way diminishing the revenues of the city. Today the board of police commissioners issued an order that all private clubs cease dispensing liquors to members. Most of the clubs were burned out, but all have secured temporary quarters in the unburned section.

### Only Two Camps.

A proclamation has been issued by Mayor Schmitz directing that all refugees be concentrated in two great camps, one to be located in the Potrero in the south side of the city and the other at Golden Gate park. This action has been made necessary for sanitary reasons, as military discipline must prevail in these crowded cities. It is believed that the refugees living in the smaller camps suffered considerably. As soon as concentration can be effected, it is believed that all will live in comparative comfort.
